

Finding National Presentations in Insight

Insight presents Scotland attainment and presentation figures (The National Establishment) and school users also have access to their own Local Authority information as well.

Some key national figures have been included here to support reflection and analysis of school data. This information also allows user to see which courses other schools across the country have presented pupils for.

In addition to this universal access, one person in each school (who has the SCOTXED Insight account) can create Learning Partnerships in order to share data without suppression with others schools. (More details here)

It can be useful to reflect upon SCQF presentation levels across Scotland. This can provide context for curriculum offer and presentation levels within a school.

Finding Presentation Figures

Change the Establishment from your school or authority to 'National Establishment' - this will give the information for Scotland.

- The National Establishment**
 - Forth Valley & West Lothian Collaborative
 - Clackmannanshire
 - Falkirk
 - Stirling
 - West Lothian
 - No Regional Improvement Collaborative
 - South East Collaborative
 - South West Collaborative
 - The Northern Alliance
 - The Tayside Collaborative
 - The West Partnership

The National Establishment ▾ Learning Partners ▾ Benchmarking ▾ Course ▾ Documents ▾ Fiona.Lawrence1 ▾

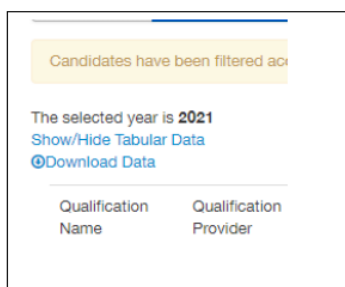

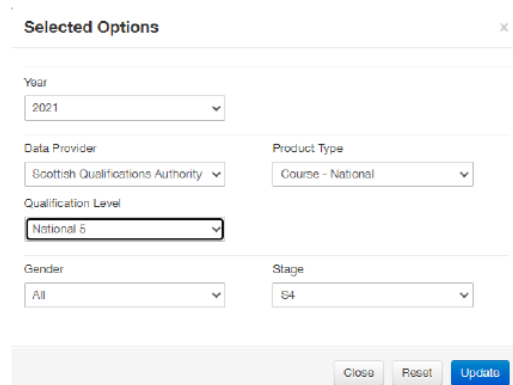

Then use the course tab to select 'Whole School Course Summary'

Filter by using the Change options button.

Start with
Data Provider: SQA
Product Type: National
Qualification Level: National 5
Stage: S4

Use the 'Download Data' button to download this table, save it as an Excel spreadsheet

Then go back to the 'Change Options' button to get information about all the other courses/ year groups you are interested in. Download the data each time and then add it to your original spreadsheet.

For S4 information try:

Data Provider: SQA
Product Type: Course- National
Qualification Level: Higher
Stage: S4

Data Provider: SQA
Product Type: Course - National Progression Award
Qualification Level: SCQF Level 5 (& then SCQF level 6)
Stage: S4

Data Provider: SQA
Product Type: Course – Skills For Work
Qualification Level: National
Stage: S4

Data Provider: SQA
Product Type: Course – Award
Qualification Level: SCQF Level 5 (& then SCQF level 6)
Stage: S4

This will then provide you with the information about all the S4 presentations across Scotland.

You can also use Change Options to alter the Qualifications Provider from SQA to other providers, to look at Open University courses, for example.

Then return to the Establishment tab at the top and change from National Establishment to your school. Do the same things, and save it to a different sheet on your spreadsheet, this will be your school information.

In addition, if you have pupils who did a qualifications at another school, or at College you can find this in the 'Course Tab' under 'Partnership Course Summary'
